The Danish Welfare Model

Master's Course

12 December 10:00 am – 17 December 10:00 am 2015

(take home exam)

The Danish Welfare Model December 2015

Question 1

During 2015 immigration into Europe grew considerably. Denmark also received significantly more migrants and refugees than previous years.

Against this background, analyze the economic and social consequences of the increasing numbers of migrants and refugees for Denmark and the Danish society as a whole – both in the short and long run.

Question 2

Discuss the evolution of welfare in Denmark in recent years, compared to the development of other welfare models:

1. The Anglo-Saxon model (ex. UK and USA)
2. The continental model (ex. Germany and France)

Both questions must be answered.

Notice that the length of your paper must not exceed 10 pages everything included
